

Hero[®] Chair – Australian case examples

Frequently selected over internationally branded chairs, the Hero Chair[®] has become Australia's most successful task chair.

Servicing many medium to large corporates, government departments, and not-for-profit organisations across Australia, we have listed one of each who have hugely benefited from improved staff wellbeing and return on investment.

1. Not-for-profit

BACKGROUND: Vision Australia had problems with new chairs at another office location fitout causing multiple staff complaints. They wanted to prevent this happening again, and ensure the staff would be comfortably supported.

“Having implemented the Hero Chair for two organisations now I cannot speak highly enough of the quality and comfort of the chairs. They are easily adjustable and provide full functionality to meet ergonomic standards as well as being aesthetically pleasing for the fussy architects out there! Our experience with Corporate Chair Systems has been second to none, with trial chairs arriving promptly and working with us to ensure the chairs were ready on time. I would happily recommend the Hero Chair to any organisation that is looking to purchase task chairs – they are by far the best on the market.” **Michelle, WHS Advisor – Vision Australia**

2. Medium corporate

BACKGROUND: Henry Schein saw the Task chairs as a significant investment and knew it was the one thing in the new office fitout that they had to get right for their staff. The Hero[®] Chair was subsequently selected over a handful of other chairs they had on trial.

“We put 160 of your Hero Chairs into our site in Sydney 12 months ago and have not had a single complaint from a staff member. We have a couple of staff members with walking challenges and some with back issues and they have found your Hero Chair to be wonderful for them.” **Renzo, – Regional Safety, Security & Facilities Manager, ANZ**

And at a later date:

“Hi Tracey, Mike Covey our Vice President and Managing Director is so impressed with the Hero chairs at our Mascot office he would like to purchase one for himself at home.” **Renzo, – Regional Safety, Security & Facilities Manager, ANZ**

3. Government department

BACKGROUND: Department of Treasury and Finance (DTF) were making a significant investment replacing the many hundreds of task chairs in the building. Having had an internationally branded chair to this point and were getting many staff complaints and backpain over the years, DTF underwent a lengthy and thorough trial and selection process involving their staff, their own in-house selection panel and external ergonomist consultation.

“The staff didn't actually choose your chair as the most 'comfortable', but we made the final decision to use chose the Hero Chair because it was the most supportive and ergonomically designed. Out of all the chairs we had on trial, yours was the only chair the ergonomist would sign off on as it had the ergonomic adjustments so that we would not have staff troubles down the track.” **Director, – Corporate Delivery Services - Corporate and Government Services Division.**
